

KardiaMobile[®] 6L Advanced ECG Monitoring to Drive Your Sponsors' Success

AliveCor's KardiaMobile 6L offers CROs the leading technology in ECG monitoring solutions to enable their sponsors with seamless, high-quality cardiac data capture and analysis.

KardiaMobile 6L[®] is the AI-enabled, machine learning-powered ECG device that delivers medical-grade heart data anytime, anywhere. AliveCor's digital tools help patients access, manage, and share their data.

Differentiate and Innovate with the Leading ECG Monitoring Technology

- Trusted by leading global pharma companies for use in clinical research
- Streamline patient enrollment to support diverse participation
- Encourage protocol adherence with patient-friendly tech
- Proven high patient adherence with mobile ECGs in DCTs¹
- Rapid 30-second ECG readings
- Accurate determinations, including AFib, QT interval, and much more*
- Any EDC compatibility
- Integrate trial data using AliveCor API and FDA-cleared SDK, or proprietary platform

Seamless ECG Operations for End-to-End Efficiency

1. Quick Activation

Device ready for immediate use anywhere, anytime

2. Reliable Data Capture and Transfer

Secure high-fidelity, real-time ECG data capture

3. Seamless Integration and Analysis

Streamline data analysis with EHR, API, and SDK integration options or proprietary platform

4. Data-Driven Clinical Insights

Immediate cardiac insights for physicians and researchers to inform trial decisions

Strategic Advantages of KardiaMobile® 6L

Differentiated Technology

Adopt 6L utility for analysis and monitoring, especially in remote settings, to support your sponsors' patient recruitment

Patient Satisfaction

Support sponsors in improving patient experience and reducing trial resources with efficient, non-invasive ECG collection

Monitoring Alternative

Improve continuous monitoring in study designs, delivering a user-friendly alternative that promotes participant adherence and compliance

Cost Efficiency

Reduce trial risks and costs with integrated, secure data flow and analysis for competitive RFPs and bids

Experience the AliveCor Impact.

See how our technology can support your sponsors' clinical trial requirements.
